

Dear WCTA Email Customer,

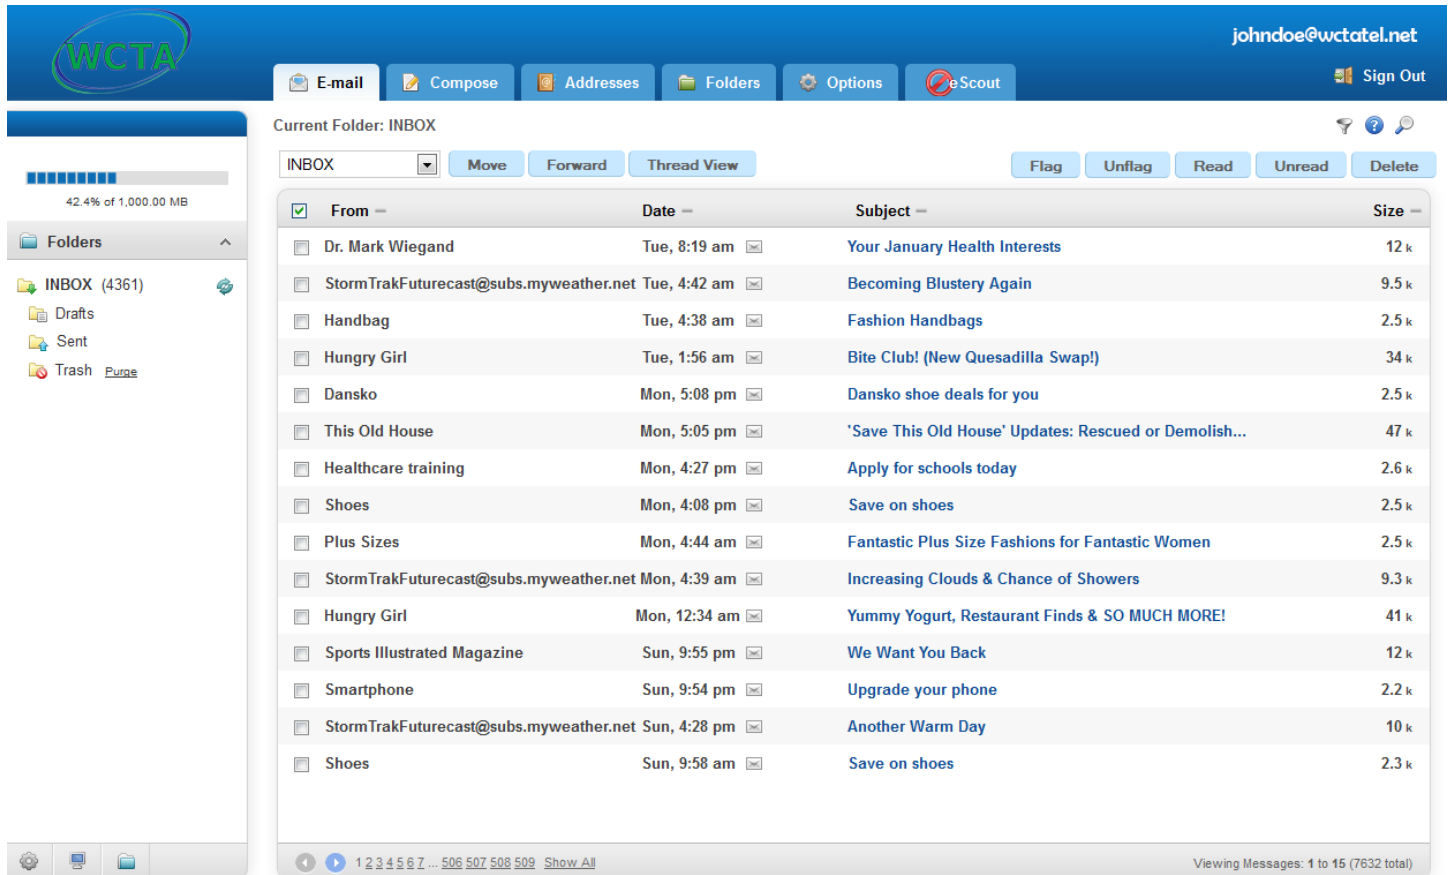

NEW features have been added to enhance your WCTA email service. We hope the new Webmail client makes managing your email more convenient.

WCTA will be upgrading its email system the early morning hours of May 14th. We look forward to providing you with exceptional email services. If you remotely access your WCTA email through a device or other email application, you will not see any changes. If you login to the webmail page, you will notice a different layout and increased functionality.

Webmail Access – allows you to retrieve your email wherever you have Internet access.

Go to <http://webmail.wctatel.net>

You will need to login with your email address (example: johndoe@wctatel.net) and password.

The screenshot displays the WCTA webmail interface. At the top, there is a blue header with the WCTA logo on the left and the user's email address, johndoe@wctatel.net, on the right. Below the header is a navigation bar with buttons for E-mail, Compose, Addresses, Folders, Options, and e-Scout. A 'Sign Out' button is also present. The main area shows the 'Current Folder: INBOX' with a list of email messages. The messages are organized in a table with columns for From, Date, Subject, and Size. The left sidebar shows a folder tree with 'INBOX (4361)' selected, along with Drafts, Sent, and Trash. At the bottom, there is a pagination bar showing '1 2 3 4 5 6 7 ... 506 507 508 509 Show All' and a status bar indicating 'Viewing Messages: 1 to 15 (7632 total)'.

<input checked="" type="checkbox"/>	From --	Date --	Subject --	Size --
<input type="checkbox"/>	Dr. Mark Wiegand	Tue, 8:19 am	Your January Health Interests	12 k
<input type="checkbox"/>	StormTrakFuturecast@subs.myweather.net	Tue, 4:42 am	Becoming Blustery Again	9.5 k

<input type="checkbox"/>	Shoes	Sun, 9:58 am	Save on shoes	2.3 k

This upgrade includes e-Scout spam and virus filtering integrated into your webmail. eScout enables you to view and manage suspected spam, suspicious attachments, and viruses sent via email.

- You will need to login with your username email address and password.

The screenshot shows the WCTA eScout interface. At the top right, the user is logged in as johndoe@wctatel.net. The navigation bar includes buttons for E-mail, Compose, Addresses, Folders, Options, and eScout. The sidebar on the left shows folder statistics: INBOX (4361), Drafts, Sent, and Trash. The main content area displays 'Suspected Spam' with a table of two items and their status options.

Score	Received	From	Subject	<input checked="" type="radio"/> Spam (Learn)	<input type="radio"/> Non-spam (Rescue)	<input type="radio"/> Delete
4.5	2012-01-17 16:25:13	blake@ispn.net	(no subject)	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
999.0	2012-01-18 11:52:00	ispntest@marktwain.net	test spam	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>

Customer Panel – allows you to customize your email account by changing your password whenever you'd like.

Go to <http://custpanel.wctatel.net>

You will need to login with your full email address and your password.

The screenshot shows the Customer Admin Panel. The top navigation bar includes 'support' and 'logout' buttons. The main content area is divided into three sections: Account Profile, IP Detail, and General Support Information.

Account Profile

Account (Billing) ID	Engineering
Name	John Doe
Company
