Television Visual & Audible Accessibility

Pursuant to the Twenty-First Century Communications and Video Accessibility Act of 2010 (CVAA), all telecommunications providers, including Winnebago Cooperative Telecom Association, are required to increase the access of persons with disabilities to modern communications. The CVAA contains protections to enable people with disabilities to access broadband, digital and mobile innovations. To remain compliant with the CVAA, WCTA offers large button remotes that function as our compliance mechanism for this act and is a value-added piece of equipment available to all WCTA members free of charge upon request.

URC 2060 “Big Button” Remote Overview

WCTA offers a large-button remote to customers free of charge upon request. The large-button remote is a third-party device that delivers improved readability of the remote keys and may be easier to use for our elderly or visually impaired customers and other customers with disabilities.

WCTA provides this remote at no additional charge for our customers and offers help and support for using it, though we do not manufacture the device. The remote control requires installation of two AA batteries (included). To request a Big Button remote, simply call our office at 1-800-592-6105 or visit our business office at 704 E. Main St., Lake Mills IA 50450. Should you need additional assistance programming this new remote, one of our Account Representatives or Technicians will be happy to assist you.

Additional Features:

- **Simplified Modeless Control** - All keys on this remote are dedicated to controlling your cable box except for the TV POWER, VOLUME, MUTE, and INPUT keys.
- **Large Keys/Text for Easy Reading** - This remote features over-sized keys and larger text to make the keys easy to quickly identify, even with tired eyes.
- **Simple 3-Step Setup** - Programming this remote is as simple as 1-2-3 with the popular brand setup feature.
- **Backlit Keypad** - This remote control might come with a feature that lights the keypad after each keypress to make it easier to read and use the remote while in a dark setting.
